

We Serve Today for a Better Tomorrow.™

DynCorp International is a global government services provider working in support of U.S. national security and foreign policy objectives, delivering support solutions for defense, diplomacy and international development.

#### WE SERVE TODAY FOR A BETTER TOMORROW

DynCorp International operates major programs in logistics, platform support, contingency operations and training and mentoring to reinforce security, community stability, and the rule of law.

We provide expertly conceived and professionally executed services to meet the complex demands of today's world. We have broad international expertise and over 60 years of experience working in remote, dangerous and austere environments. We integrate our many competencies to provide solutions that fit each customer and situation, and bring a culture of compliance, accountability and relentless performance to each program and task.

## Maintenance, Modifications and Support Services

### SUPPORTING MILITARY OPERATIONS GLOBALLY

The people of DynCorp International (DI) support critical military base operations as well as vehicle and ground support equipment needs globally with end-to-end professional services and technical support. From rapid-response field assignments to long term engagements, we provide the world's most comprehensive array of integrated solutions to ensure our customers' success.

By leveraging our extensive global infrastructure, our high-performing teams quickly organize and deploy workforce, material and technology solutions wherever we are needed. When our customers need a turn-key solution, we provide self-sustaining programs that not only supply and maintain the mission, but fulfill the critical operational roles of site development and operations, communications, security and training.

From daily maintenance and modifications to training and comprehensive mission support operations, we provide the services that ensure safety, reliability and performance.

## Maintenance, Modifications and Training

### MAINTENANCE

Our teams provide organizational, intermediate and limited depot-level maintenance for hundreds of types of ground vehicles and support equipment around the globe. Today, our ground support equipment professionals and technicians support missions at multiple locations worldwide – maintaining the highest level of operational readiness at all times. Services include:

- RESET and LBE Maintenance
- Fleet Maintenance
- Corrosion Control
- Load Testing and Serviceability Inspections
- Depot Support
- Quality Control – ISO 9000:2008 Certification
- Complete Aftermarket Logistics Support

### MODIFICATIONS

DI's trained professionals install vehicle and ground support equipment modifications for a broad range of equipment, spanning hundreds of military and commercial variants worldwide. Services include:

- Armor Replacement and Up-Armor Modifications
- Kit Manufacture and Installation
- Field Service Repair and Kit Installation
- Configuration Management
- HVAC Installation

### TRAINING SERVICES

We have significant experience in the area of training development and presentation on a myriad of tasks and equipment types. Our training teams work closely with OEM engineers and production facilities to ensure that well developed and comprehensive training curriculums for the operators and maintainers are available for presentation. All training courses and equipment are developed in direct correlation with the development of maintenance and operations concepts for each end user. Services include:

- User Test Training
- Vehicle Familiarization Training
- Instructor and Key Personnel Training
- New Equipment Training

## End-to-End Support Solutions

### SUPPORT SERVICES

Companywide, our personnel provide a broad range of services that can deliver a total mission solution or fulfill any program's requirements. We are currently applying our global experience and broad expertise to the development of important aviation infrastructure projects and facilities in some of the most challenging regions of the world.

Services include:

- Logistics
- IT and Communications Installation and Operations
- Construction
- Workforce Sustainment
- Communications
- Instructor and Key Personnel Training
- New Equipment Training

### BASE OPERATING SUPPORT SERVICES (BOSS)

DI operates and manages installations for government and commercial customers worldwide. Our facility management expertise ranges from the handling the complex challenges at bases the size of a small city to the finesse required to meet the needs of small, remote support encampments. As a support partner at installations and forward operation bases, we understand each customer's needs are unique, and we know mission success is achieved through a detailed approach.

Our services go beyond traditional facility management – we deliver a full spectrum of Life Support services – even at remote or austere locations. We also maintain airfields and aircraft-support equipment, manage and repair ground-vehicle fleets, and coordinate complex logistics projects and supply-chain management operations.

Services include:

- Plan, Build, Operate and Maintain Facilities
- Program and Facility Management
- Engineering and Consulting
- Plumbing and HVAC Maintenance
- Power Generation and Utility Operations and Maintenance
- IT/Telecommunications
- Base Environmental Services
- Hospital and Medical Facilities Maintenance
- Roads and Grounds Maintenance
- Refuse Collection and Recycling
- Inventory Control
- Fire and Security Alarm Systems
- Pest Control
- Life Support
  - Lodging/billeting, security, fire and rescue emergency services, water, ice, power, dining and catering, and a wide variety of additional support

## Base Operation Support

### PLAN, BUILD, OPERATE AND MAINTAIN FACILITIES WORLDWIDE

DI performs Base Operation Support Services in the world's most challenging environments. No condition is too demanding, no location too remote. We are a recognized leader in planning, building, operating and maintaining all types of field facilities, including:

- Barracks
- Forward Bases with all Utility Operations
- Public Works
- Dining Facilities
- Physical Security
- Ranges
- Utilities
- Transportation Facilities
- Aviation Hangars and Aprons
